IMPORTANT NOTES FOR ALL BIDDERS

We would expect that the wise buyer will submit numerous bids, all at levels commensurate with his idea of the value of each lot. On items that he really wants badly, the serious bidder will bid well above the top estimate, recognizing that his bid will be reduced to 10% above the second highest bid, but also realizing that he may be in competition with other seriously interested bidders.

In those sections which show a price range for an estimate, the low figure represents a wholesale evaluation, while the high figure indicates what a serious specialist would gladly pay for the lot. Bids less than the lower of the two figures will most likely be unsuccessful; bids above the higher figure will most likely be successful and will most likely be reduced as outlined above (see also paragraph 2 of TERMS OF SALE).

In those sections where only one estimate is given, in some instances with a plus mark, these estimates represent what we believe to be a fair wholesale price and/or the reserve. In many cases these single estimates represent our own cost value. In nearly all cases, bids below these estimates will not be accepted. Generally speaking, our estimates should serve as useful guides, but all bidders should use their own knowledge and experience as the final tools to determine their bids.

We make the following suggestions to all bidders:

- (1) Bid what you wish on each item, but keep the estimate and reserve prices in mind lest you waste your opportunity to acquire an item you particularly desire.
- (2) Bid the maximum bid you would pay for the lot, recognizing that if your bid is high, relative to other bids, your bid will be reduced in accordance with paragraph 2 of TERMS OF SALE.

At the conclusion of the listing of all lots we have observed that many of our estimates in the paper money section as well as the gold section, may be considered low and are expected to realize prices at above our estimates. We make this observation based on the increased interest in paper money and the ever-increasing interest in gold. So also, all rare numismatic items are finally being recognized as such and are finding their ranks in value.

Requests for additional information, confirmation of the grade, date, mint mark, etc., of any particular items, or any similar individual questions are welcome and will be answered as promptly as possible.

An asterisk (*) before the lot number indicates that the actual lot offered for sale is photographed and can be found in the PLATE SECTION.

AUKTIONS-BEDINGUNGEN

1. Dies ist eine Versandauktion. Alle Gebote müssen uns bei Auktionschluss, 30. der September -18:00 Uhr Ortszeit erreicht haben. Das jeweilige Los wird dem am höchsten Bietenden zugeschlagen. Das Höchstgebot für ein Los kann auf einen niedrigeren Betrag herabgesetzt werden (siehe 2. Absatz). Es dürfte einleuchtend sein, daß auf diese Weise der Bietende ein großzügiges Gebot macht, wenn er den (die) gewünschten Posten bekommen möchte.

2. Bedingungen zum Preisnachlaß: (a) Kein Preisnachlaß erfolgt an Geboten von \$10.00 und darunter. (b) An Geboten \$10.01 & höher - das Höchstgebot wird auf 10% über dem 2. höchsten Gebot herabgesetzt; z.B. wenn Sie für Los #100 \$70.00 bieten und das 2. höchste Gebot \$50.00 beträgt, so werden Sie das Los für \$55.00 (oder \$50.00 + 10%) erhalten. Jedoch, wenn Sie \$70.00 bieten und das 2. höchste Gebot \$65.00 beträgt wird kein Nachlaß gewährt, da 10% über dem 2. Gebot \$71.50 ist. Wenn Nachlaß gewährt wird, wird der Betrag zum nächsten halben Dollar aufgerundet.

3. Ein Voranschlag ist für die meisten Posten gegeben. Diese Voranschläge bezeichnen einfach den vom Eigentümer eingeschätzten Wert, oder unsere berufsmäßige Ansicht über den Wert des jeweiligen Postens. Dies sind nur Vorschläge & Sie können höher oder niedriger bieten, ganz nach Ihrem Belieben. Um es besser zu (er)klären, lesen Sie bitte "Anmerkungen für Gebote". Wir empfehlen, wenn Sie den Posten wirklich möchten, sollten Sie dicht an den Voranschlag oder darüber bieten.

4. Alle Gebote sollen nach den Posten - nummern, wie im Katalog verzeichnet, gemacht werden. (Bitte vergewissern Sie sich, daß Ihre Gebote leserlich sind.) Gebote sollten nur in U.S. Währung gemacht werden. Im Falle eines gleichen Angebotes bestimmt der Poststempel.

5. Posten werden mit einer offenstehenden Rechnung an Kunden, die einen guten Kredit mit uns haben versandt. Neue Kunden müssen ausreichende Kreditempfehlungen haben oder und einschließlich 20% Anzahlung machen. Neue Kunden, die Versandt an eine Schließfachadresse wünschen müssen auch Ihre Heimat- oder Büroadresse angeben. Kunden, die noch keinen Kredit bei uns eingerichtet haben, bekommen eine Warenrechnung für Ihre erfolgreichen Gebote zugesandt. Die Posten werden nach Erhalt der Zahlung versandt.

6. Alle erfolgreichen Gebote müssen sofort nach Erhalt in U.S. Währung beglichen werden. Dies ist sehr wichtig, so daß Konsignatoren ausgezahlt werden können. Spezielle Vereinbarungen zur Zahlung sind möglich, wenn der Betrag eine solche Behandlung rechtfertigt. Wenn das notwendig ist, bitte ersuchen Sie darum VOR der Auktion, nicht danach.

7. VISA/BANKAMERICARD oder MASTERCARD können zur Zahlung verwendet werden, vorausgesetzt der Kunde ist einverstanden die Servicekosten, die uns unsere Bank bei einem solchen Geschäft verrechnet (3% bei VISA/BANKAMERICARD & MASTERCARD) zu tragen. Ausländische Kunden werden gebeten Ihre Zahlungen durch eine internationale bank, mit Zahlkarte oder Tratte zahlbar in New York zu begleichen.

8. Porto & Versicherung oder Anmeldeggebühren werden bei allen Rechnungen dazugerechnet. Ausländischen Kunden wird ein Prozentsatz vom Gesamtwert verrechnet, um die Versicherungskosten teilweise zu decken und unsere Versicherung wird für etwaige Verluste haftbar sein. Ausländische Kunden sollten uns mitteilen, wenn spezielle Versandt-instruktionen von Nötensind.

9. 5½% Verkaufssteuer wird bei allen Verkäufen an Bewohner des Staates Texas verrechnet, ausgenommen Händler.

10. Auktionsverkäufe sind keine Bestätigungsverkäufe. Bei Einreichung von Geboten erklären Sie sich mit den Verkaufsbestimmungen einverstanden. Die Posten sind von Experten beschrieben, irgend welche Fehler, die Ihnen unterlaufen sind werden gerne berichtet. Gleichfalls ist man für die Fehler, die man macht verantwortlich. <i>The above Pope coins struck by the Royal Mint in England, in small quantities as listed above. Due to an error when ordering, the issuance of less UNC sets was accomplished. This is contrary to the usual trend where less are struck of the PROOF than the UNC sets. The collector is now faced with having a choice of the lesser mintage coin (considerably rarer) at a slightly higher price than the PROOF which is not as rare, but more sought after because of its beautiful finish. The end result being that one set is as good an investment as the other and either set has a tremendous potential, as collectors are not yet fully aware of the issuance of these handsome coins which will undoubtedly continue to increase in demand.</i>

*554 -DOMINICAN REPUBLIC-Gold Proof Pattern. One of only ten pieces struck in gold. 38mm, 3mm thick, reeded edge, actually 46.8 gr of 999.99 gold. These pieces were designed for the consideration of the issuance of a gold Troy Onza to be called Enriquillo, (read below). One of the twenty gilded specimens sold in our July 31st auction for \$771.00. When bidding, please consider the amount of gold content. This by the way is specimen number six (numbered in edge) the ex-Miguel Estrella specimen (he is the author of the recent extensive book entitled MONEDAS DOMINICANAS. 3,000.00+

555 -The same as above but gilded pattern similar to the specimen offered in our July 31st auction. Again with the word MUESTRA on edge. Undoubtedly, these pieces will gain in value with the even increasing demand of patterns of Latin America - a field which now has been researched on a book on which is now in the planning stages as mentioned above previous specimen sold for \$771.00. We will estimate at the previous price level of, 500.00+

Having been educated by the Spaniards, Enriquillo had wide knowledge of the use of guerilla warfare and Spanish arms and customs (?-1533), and he stands out among rebellious Indian leaders during the Spanish conquest of Latin America.

The Dominican Republic occupies the eastern two-thirds of the island of Hispaniola which served as a base for Spanish exploration of the New World.

As a child Enriquillo was taken to a Franciscan convent by Father Las Casas. He learned to read and write and was baptized by the Spanish priests.

Enraged by the increasing abuses of the enslaved Indians, Enriquillo presented his complaints to the "Real Audiencia". He was given a letter of favor, but it only served to aggravate the oppression of the Indians by the Spanish landowners.

Convinced in 1519 that the living conditions of his people could only get worse, he began to organize a rebellion by the Indians. He instructed his people to unite in the mountainous region of Bahoruco with stolen Spanish arms.

Enriquillo organized the men into small bands which stayed in the mountains and avoided close combat. Guards were placed in strategic points. The old, the women and children were hidden in safe places.

In 1533 Enriquillo signed a peace treaty with a special envoy of King Charles V which granted liberty to the Indians. The Spanish realized that it was the only way to stop the rebellion.

Unlike most sets being offered, this one challenges the matte proof rule as they do not have the usual dull finish of matte proof's but rather a surface which indicates the dies were polished. We cannot seem to find any information that says that also polished specimens were made, however, we are familiar with matte finish sets inasmuch as twenty years ago, our area of speciality concentrated on English coinage. Considering the maundy sets, the coins the key crown and the quality of the set, an estimate will be resonable at,	1,500.00+

*811	-GUATEMALA-REPUBLIC ISSUES-Guatemala Y1 1/4 Real 1859. The most soughtafter 1/4 Real of Guatemala. First date of the Republic and most difficult to obtain. If Almanzar's Coins of the World divided its years in Numismatic Business with the specimen they had owned, they would have offered one every 4 or 5 years. Coin is holed as they usually come. We want to show enlargement of this piece not only because its importance dictates special treatment but also to show a minor scratch between the 5 and 9 of date which is actually of little consequence. *863	-Y99, 5 Centavos 1925. 1 of 8 specimens struck in gold for presentation. This is mainly a European tradition where gold specimens were struck for Royalty and often English pennies are known to have been struck in precious metals. There are very few cases when Latin American regular issues have been struck in gold and this is in fact the second occasion we have had to offer such pieces (in our June 1980 auction we offered 5 centavos 1953 struck in Gold which in AU-UNC sold for \$1,000). Surely the specimen hereby offered also AU-UNC should surpass this figure,	1,100-1,500.00

It is also softly struck in the mountain peaks area. Due to this impairment we will grade reverse AU, obverse XF, weak R. This particular issue because of the Crezca legend is a soughtafter type. .	350-500.00

THE TALE OF TWO RARE COINS

- *921 -Guat. Elizondo unlisted Variety, 1 Peso 1893 but only assayer G. This coin was not known to Elizondo when he published his second edition in 1971. For that matter, not until recently was it recorded in any numismatic catalog (but not priced). First offered ever by ALMANZAR'S COINS OF THE WORLD in their 10th Anniversary auction sale (August 31, 1971 lot 6,000). The RG assayer of this date (listed below) alone is rare enough. However, unmatched in rarity for a Guatemalan peso is the coin hereby offered. This and the following piece are the tail-end of a collection which was dispersed several years ago and through which several previously unlisted types of Guatemalan 1/2 reales counterstamped coinage surfaced but the proud owner at the time would not let go of the pieces hereby offered. The specimen offered by Almanzar then is up to now the only other specimen publically offered. Note: if double the amount of pieces that have been recorded exist, this coins will be twice as rare as the United States 1804 dollar. Do not wait for a nicer coin. The previously offered specimen had a Fine reverse but displayed obverse corrosion as the elements were so unkind to the coin that it must have remained in the open ground for many years qualifying it as barely good. Although with a plugged hole, this coin is otherwise Very Fine and by far a nicer coin. The owners estimate is reasonable at 3,500-5,000.00

In offering this coin we realize the single G assayer was damaged with a hole, however, when comparing this coin with the coin below you will note that there are different characteristics in the date including crude date with no period after the date and furthermore it can only be a G because the G as visible in the coin offered by us in 1971 was close to "0900" exactly where the plug is now. If you analyze the coin closer you will see other reasons why it can be only G assayer. (Also see plate section)

- *922 -El130, 1 Peso 1893 R.G. Much of what can be said about this coin has been mentioned above. It is only second rarest to the 1893G, but even then, not of general knowledge to collectors. The very few specimens known, when compared, show that it exists in flat and round "3" in the date (as can be seen by the enlargement,) this one has a round top "3" and period after the date. What is said above should not understate the rarity of the RG assayer as even though we have recorded more specimen's of this coin, we have no record of offering a single specimen in the last 10 years or so, mainly because two of three other known specimens remain in extensive elaborate collections and can not be shaking loose. This VFine specimen is deserving of a bid oscillating at, 3-5,000.00

They are becoming so rare that many are going back to their country of origin. Although it was bidded higher, we sold one in our March 31, 1981 auction an AU specimen, for \$2,310.00. The present VF-XF specimen with this continual escalating market should bring, 1,200-1,500.00

- *929 -E143 1 Quetzal, 1925, As if one was not enough, here is a second specimen. This one has a Choice Extra Fine obverse and an XF Reverse impaired by friction in areas of the field as seen in the photo. This is hardly of any consequence and the coin should bring, . 1,500-1,850.00

As this counterstamps were struck in 1894 not too many Peruvian Soles and Chile pesos were available in circulation. So early dates are rare and in the offering of the Peter W. Broker collection of Guat. 1/2 Real counterstamped emergency coinage (May 20, 1977), This piece sold in VF for \$472.50. The increasing interest in coinage of Hispanic-America should reflect in this specimen and it should in exceed bid of, 500.00+

- *938 -HAITI-Proof set of two (2) coins in original case, 1976 Olympiad commemoratives: 50 Gourdes in silver and 500 Gourdes in gold. Although modern coins are not a favorite with some collectors, coins of this topic (Olympics) are very much in demand and were only struck in small quantities: 8,000 of the 50 Gourdes and 1,020 of the 500 Gourdes. They are of beautiful design, rarity and interesting subject, and this should be considered when bidding. They are presently cataloged in Krause at \$220.00 but should exceed this estimate of, 250.00+

<i>A number of the following modern coins of Peru are being catalogued by a new book authorized by Gamaniel Beltran. The book is an interesting study of the varieties of the modern coins of Peru starting with the 1863 1/2 Dinero and all the way through the silver Soles and the 20th century minors. The book does not give evaluations but indicates rarity scale. It describes the varieties in Spanish and there are no photos, but translations can be made with very little effort. In the following offerings, we will use (B) numbers when information has been taken from that book. The book can be ordered from us at \$9.50.</i>

THIS IS THE END OF REGULAR WORLDWIDE COINAGE OFFERINGS, NEXT PAGE STARTS WITH BUDGET COINS.

For the "Budget-minded" collector this section will consist of less expensive coins. In an effort to allow time for proper research of our usually extensive listings, we have featured this section to allow both advanced and "Budget-minded" collectors the opportunity to leisurely peruse our offerings.

However all collectors should keep in mind that what is considered as "common" coins today might very well be tomorrow's rarities, and of course the date collector well appreciates that all are needed to complete his/her set. The uncertainty of the past and current silver melt leaves many mintages as unanswered questions. Only time will tell, and we must remember that silver coins with the largest mintages were the first to reach the smelter.

With cost saving in mind, we have purposely been very brief in the description of our coins. We still give you Catalog Numbers, but occasionally we will abbreviate denominations and the verbal niceties.

We sincerely hope that you enjoy the search for those elusive coins you need. We would appreciate your comments on this new feature.

- *3724 -Gold Medal, 35mm. 24 gr. 0.900 fine, MARRIAGE MEDAL OF MAXIMILIAN AND CARLOTA. This is an item of great numismatic interest. Located in Guatemala, it surfaced in an old family collection and derived from the state of high-ranking official of the Guatemalan Government who had served in the Diplomatic Corps in Mexico.

Although the fancy "MC" engraving for Maximilian and Carlota in the reverse points out to this being a marriage medal, we found that their marriage was in fact on July 27, 1857 and in French as can be expected is dated 5 Fevrier 1861 (5 February 1861). This date is engraved in the rim of the medal.

Another explanation could be that this medal could have been presented to this Guatemalan official by the Emperor and the Empress at that later date during a celebration or special occasion or at a later visit by the Guatemalan Statesman.

Obv: Male and female figures holding hands or exchanging marriage vows (?). Below: Engraver's name "M O N T A G Y. F."

Rev: Flower wreath around engraved initials "M" and "C".
The medal grades at least Proof-like Extra Fine-About UNC, with a minor ding at 6 o'clock in the obverse and is expected to bring. 2,000-3,000.00

CABLE ALCOW

Al and Mary Ann Almanzar of Almanzar's Coins of the World,

To our Customers & Friends:

As our firm ventures into the 21st. year of service to the numismatic fraternity - we look back at our accomplishments and realize that nothing would have been possible without the individual support of everyone of you - the collectors!!

Much could be written about how hard we work, the long hours of preparation, the endless research, problems with our friends the printers, our dedicated staff, etc., but at the end of the line the cause and responsibility of our success is due to your personal commitment to our endeavors in your behalf. Without you (our customers) Almanzar's would never have obtained international recognition - a feat of rather awesome proportions since our owner arrived in this country 30 years ago with \$10.00 in his pocket and no thoughts other than those of survival.

With this Auction Catalog we dedicate ourselves to continued offerings of numismatic material that are truly representative of your collecting desires. As always we are available to all hobbists, whether your budget only allows five dollars a month---or a million. The quality of our end product is predicated by your support!

Our heart-felt thanks go out to all of you. We pray that we can continue to provide the service that you deserve and we humbly remain at your numismatic disposal.
